

Biomed Systems: Products

Economic Reagents For All Hematology Analyzers & BG-BE Analyzers

All reagents are imported on O.E.M. basis from U.S. and are ISO 9001 certified products. The reagents are identical in composition to source companies and does not need any alteration in calibration when installed with system.

The Biomed reagents are highly cost effective and can bring down the cost per test of current systems upto 50%; thus save valuable laboratory income amounting to lakhs of rupees per year. All Biomed reagents are supported by a complete technical support and expert team of service engineers.
